

Markdown Rendering & Page Break Test Document

This document tests various markdown elements including headings, lists, tables, code blocks, and images to confirm proper rendering and page-break behavior.

Section 1: Heading Hierarchy

Level 3 Heading

This is text under a level 3 heading. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed do eiusmod tempor incididunt ut labore et dolore magna aliqua.

Level 4 Heading

This is text under a level 4 heading. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris.

Level 5 Heading

This is text under a level 5 heading. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum.

Level 6 Heading

This is text under a level 6 heading. Excepteur sint occaecat cupidatat non proident, sunt in culpa.

Section 2: Unordered Lists

Basic Unordered List

- Item one
- Item two
- Item three
 - Nested item 2a

- Nested item 2b
 - Double nested item 2b-i
 - Double nested item 2b-ii
- Item four

Bullet Variations

- Asterisk style item one
 - Asterisk style item two
 - Plus style item one
 - Plus style item two
-

Section 3: Ordered Lists

Numbered List

1. First item
2. Second item
3. Third item
 1. Nested item 3a
 2. Nested item 3b
4. Fourth item
5. Fifth item

Lettered and Grouped

1. Setup phase
 - Install dependencies
 - Configure environment
2. Development phase
 - Write code
 - Run tests

3. Deployment phase

- Build project
- Deploy to production

Section 4: Mixed Lists

- Task List Item 1
 - 1. Subtask 1a
 - 2. Subtask 1b
- Task List Item 2
 - 1. Subtask 2a
 - 2. Subtask 2b
 - Detail 2b-i
 - Detail 2b-ii

Section 5: Tables

Simple Table

Header 1	Header 2	Header 3
Cell 1-1	Cell 1-2	Cell 1-3
Cell 2-1	Cell 2-2	Cell 2-3
Cell 3-1	Cell 3-2	Cell 3-3

Aligned Table

Left Aligned	Center Aligned	Right Aligned
Left	Center	Right
L	C	R
Lorem ipsum	dolor sit	amet

Data Table

Park Name	Borough	Size	Best For
Central Park	Manhattan	843 acres	Walking, picnicking
Prospect Park	Brooklyn	526 acres	Cycling, nature
Flushing Meadows	Queens	898 acres	Family outings
The High Line	Manhattan	1.45 miles	Art, dining

Complex Table with Multiple Rows

Feature	Free Plan	Pro Plan	Enterprise
Users	Up to 5	Up to 50	Unlimited
Storage	10 GB	1 TB	Custom
Support	Email	Email + Chat	24/7 Phone
Price	Free	\$99/mo	Custom

Section 6: Code Blocks

Python Code Block

```
def fibonacci(n):  
    """Generate Fibonacci sequence up to n terms."""  
    sequence = []  
    a, b = 0, 1  
    for _ in range(n):  
        sequence.append(a)  
        a, b = b, a + b  
    return sequence  
  
# Test the function  
print(fibonacci(10))
```

JavaScript Code Block

```
const greeting = (name) => {  
    return `Hello, ${name}!`;  
};  
  
console.log(greeting('World'));
```

SQL Code Block

```
SELECT  
    users.id,  
    users.name,  
    COUNT(orders.id) as total_orders  
FROM users  
LEFT JOIN orders ON users.id = orders.user_id  
GROUP BY users.id, users.name  
ORDER BY total_orders DESC;
```

Bash/Shell Code Block

```
#!/bin/bash
echo "Starting deployment..."
npm install
npm run build
npm start
echo "Deployment complete!"
```

JSON Code Block

```
{
  "name": "Test Project",
  "version": "1.0.0",
  "description": "A test document for markdown rendering",
  "author": "Test Author",
  "scripts": {
    "build": "npm run build",
    "test": "npm test",
    "deploy": "npm run deploy"
  }
}
```

Inline Code

This paragraph contains `inline code` mixed with regular text. You can also have `const variable = 'inline code'` anywhere in a sentence.

Section 7: Blockquotes

Simple Blockquote

This is a simple blockquote. It can contain multiple sentences and provide emphasis on important information.

Multi-paragraph Blockquote

This is the first paragraph of a blockquote.

This is the second paragraph of the same blockquote. It demonstrates how blockquotes can span multiple paragraphs while maintaining their special formatting.

Nested Blockquote

This is a blockquote.

This is a nested blockquote inside the first one.

It demonstrates blockquote nesting.

Back to the first level blockquote.

Blockquote with Markdown

Blockquote Heading

- List item 1
- List item 2

Bold text and *italic text* work inside blockquotes too.

Section 8: Text Formatting

Font Styles

This is **bold text** created with double asterisks.

This is *italic text* created with single asterisks.

This is ***bold and italic*** created with triple asterisks.

This is ~~striketrough~~ text using tildes.

This is `code format` using backticks.

Mixed Formatting

- **Bold list item** with some *italic* text
 - *Italic item* containing **bold emphasis**
 - Deleted and ***very important*** text
-

Section 9: Links and References

Inline Links

[OpenAI](#) - A link to OpenAI's website.

[GitHub](#) - A link to GitHub.

Reference Links

This is a paragraph with a [reference link](#) that points to a resource.

Later in the document, we can define the link:

URLs

Direct URL: <https://www.example.com/path/to/page>

Section 10: Horizontal Rules

Horizontal Rule Examples

This is text after a horizontal rule (created with three dashes).

This is text after another horizontal rule (created with three asterisks).

This is text after a third horizontal rule (created with three underscores).

Section 11: Images

Image Syntax

If images were available, the syntax would look like:

```
![Alt text describing the image](https://example.com/image.jpg)
```

Placeholder Image Reference

Since we're testing rendering without live images, here's the format:

```
![NYC Skyline](https://images.unsplash.com/photo-1496442226666-8d4d0e62e6e9?w=800)
```

Section 12: Lists of Links

Resource Links

- [MDN Markdown Guide](#)
 - [CommonMark Specification](#)
 - [GitHub Flavored Markdown](#)
 - [Markdown Tutorial](#)
-

Section 13: Emphasis and Important Notes

Important Notes

 **Important:** This is a critical note that users should pay attention to.

 **Note:** This is additional information worth knowing.

 **Tip:** This is a helpful tip or best practice.

Section 14: Definition Lists (if supported)

This is a paragraph that demonstrates various markdown elements. The rendering should handle all of these without issues.

Section 15: Long Content for Page Break Testing

Paragraph 1

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore eu fugiat nulla pariatur.

Paragraph 2

Excepteur sint occaecat cupidatat non proident, sunt in culpa qui officia deserunt mollit anim id est laborum. Sed ut perspiciatis unde omnis iste natus error sit voluptatem accusantium doloremque laudantium, totam rem aperiam, eaque ipsa quae ab illo inventore veritatis et quasi architecto beatae vitae dicta sunt explicabo.

Paragraph 3

Nemo enim ipsam voluptatem quia voluptas sit aspernatur aut odit aut fugit, sed quia consequuntur magni dolores eos qui ratione voluptatem sequi nesciunt. Neque porro quisquam est, qui dolorem ipsum quia dolor sit amet, consectetur, adipisci velit, sed quia non numquam eius modi tempora incidunt ut labore et dolore magnam aliquam quaerat voluptatem.

Section 16: Comprehensive Example

Project Structure

```
project/
├── src/
│   ├── components/
│   │   ├── Header.tsx
│   │   ├── Footer.tsx
│   │   └── Button.tsx
│   ├── pages/
│   │   ├── index.tsx
│   │   └── about.tsx
│   └── styles/
│       └── globals.css
├── public/
│   └── favicon.ico
├── package.json
└── README.md
```

Implementation Steps

1. Initialize Project

```
npm create vite@latest my-app -- --template react
cd my-app
npm install
```

2. Create Components

- Header component
- Navigation bar
- Footer section

3. Add Styling

- Global styles
- Component-specific styles

- Responsive design

4. Deploy

- Build the project
- Upload to hosting
- Configure domain

Final Section: Summary Table

Element Type	Supported	Notes
Headings	✓	Levels 1-6 supported
Unordered Lists	✓	Multiple nesting levels
Ordered Lists	✓	Automatic numbering
Tables	✓	Alignment options available
Code Blocks	✓	Syntax highlighting with language tags
Inline Code	✓	Using backticks
Blockquotes	✓	Nesting supported
Links	✓	Inline and reference styles
Bold/Italic	✓	Single and mixed formatting
Strikethrough	✓	Using tildes
Horizontal Rules	✓	Multiple syntax options

Conclusion

This document has comprehensively tested markdown rendering elements including:

- ✓ Multiple heading levels
- ✓ Various list types and nesting
- ✓ Complex tables with alignment

- ✓ Code blocks with syntax highlighting
- ✓ Text formatting and emphasis
- ✓ Blockquotes and nested content
- ✓ Links and references
- ✓ Horizontal rules and separators
